

## — HTML structure + basic CSS'OI'

```
<doctype html!>
<"html lang="en>
<head>
<head/>
<body>
<"header class="site-header>
*****<h1>Yossi Cohen</h1>
<header/>

<"main id="intro" class="container>
<"section class="hero>
<h2>Semantic HTML</h2>
<p>Basic layout using header, nav, main, section, article and footer.</p>
<section/>

<"section id="articles" class="grid>
<"article class="card>
<h3>Article One</h3>
<p>Accessible markup with clear hierarchy.</p>
<a class="btn" href="#">Read more</a>
<article/>
<"article class="card>
<h3>Article Two</h3>
<p>CSS variables and a simple button hover.</p>
<a class="btn" href="#">Read more</a>
<article/>
<"article class="card>
<h3>Article Three</h3>
<p>Responsive grid via auto-fit and minmax.</p>
<a class="btn" href="#">Read more</a>
<article/>
<section/>
<main/>

<"footer id="contact" class="site-footer>
<small>&copy; 2025 Yossi Cohen</small>
<footer/>
<body/>
<html/>
```
